## REPORTING YOUR CREDIT

This on-demand seminar was originally presented as a live webcast on October 5, 2022, in Seattle, WA. If you attended the live webcast and reported CLE credits, you cannot also report credits from watching or listening to this recording if repeated within your three year reporting period.

## DESCRIPTION

Hear from academics and attorneys from the UK and throughout the US regarding timely topics such as Web 3.0 and blockchain as well as what you need to do now to prepare for the UPC.

## AGENDA

### 1 Preparation for the UPC: what should you be doing now

This presentation focuses on interesting aspects of the UPC that are either important to know about because they are relevant to a decision on whether to opt out and future filing strategy, or because they are things a potential defendant will need to be ready for on Day 1 of the UPC, such as what is the practical impact of disclosure/discovery rules in the UPC and how might that affect global litigation strategy.

*Helen Wallis - CMS Cameron McKenna Nabarro Olswang LLP, London, UK*

*Rachel Free - CMS Cameron McKenna Nabarro Olswang LLP, London, UK*

*Caitlin Heard - CMS Cameron McKenna Nabarro Olswang LLP, London, UK*

### 2 The New Law of Enablement and Written Description

Both the written description requirement and the enablement requirement are found within 35 U.S.C. § 112, but the Federal Circuit has repeatedly held they are two separate requirements. This presentation focuses on how the court has recently expanded these doctrines in ways that put more pressure on patentees as the law has changed dramatically in the last thirty years.

*Professor Dennis Crouch - University of Missouri School of Law, Columbia, MO*

### 3 Updates on Federal Circuit Cases

This CLE highlights the Federal Circuit's most important recent patent law opinions, including a new twist on assignor estoppel, negative claim limitations, breaking the (priority application) chain, more means-plus-function uncertainty, and losing (patentable) weight.

*Klaus Hamm - Klarquist Sparkman, LLP, Portland, OR*

## IP Timely Topics

*(agenda continued from previous page)*

---

### 4 Principles and Practice: Patenting AI/ML Inventions

Please join us as we explore the boundaries of patenting AI/ML inventions in light of the patent statutes, USPTO Guidance, practical considerations, and anecdotes.

*Greg Maurer – Klarquist Sparkman, LLP, Portland, OR*

*Brett White – K&L Gates LLP, Raleigh, NC*

### 5 You've inherited a patent, how do you fix it

This session will discuss post-Allowance and reissue insights in view of In Re: McDonald (Aug, 2022).

*Jim Bullough – Ray Quinney & Nebeker P.C., Salt Lake City, UT*

### 6 Intro to Blockchain, Crypto and Web 3.0

This session discusses traits and uses of blockchain. This will also provide an introduction to alt coins and Web 3.0.

*Steve Cherewaty – Yellow Umbrella Ventures, Seattle, WA*

### 7 IP Licensing

Learn about important topics related to licensing for the IP practitioner.

*Michael Swope – Baker & Hostetler LLP, Seattle, WA*

*Sherman Helenese – Baker & Hostetler LLP, Seattle, WA*
